

## KINGDOM EXPRESSION SUNDAY

As a people who have been exposed to the knowledge of the Kingdom and our roles as Ambassadors for God's Kingdom, we are sent to the world as light and salt (Matthew 5:13-14), and the fulfilment of this mandate is currently urgent in the heart of God.

*The reason for your making is to have dominion. Step out each day with the mind that you are created to Rule and Take Over.*

-Victor Oluwadamilare

### HOW CAN I BE A FARMER?

- 1.** You can use your fallow land to farm.
- 2.** Or you can rent out your land to farmers for the purpose of farming.
- 3.** You can be a major food or livestock distributor.

God intends to save the systems of the world and its controlling powers through His man- you and me. We must therefore play our part in this "Influence Agenda of Heaven", as we make efforts to be effective players in this clarion call of heaven. Our roles begin by correctly locating our "Kosmotic Relevance" through the several Systems available as have been exposed to us in time past. Remember that the reason for your making is to have dominion. Step out each day with the mind that you are created to Rule and Take Over. Go forth and dominate.

The Lead Brother- Victor Oluwadamilare.

## AGRICULTURE: ARE YOU A FARMER?

Remember Joseph's story in Genesis? God paved a way to the throne for him by revealing the solution to the forecast of a global deficit in food supply. Agric was relevant then, it is still as important today. Through the scriptures we see agriculture woven into the history of patriarchs like Abraham and Lot, David, Elijah, Elisha and Jeremiah.

In 2020, Nigeria's Gross Domestic Product (GDP) came up to 152 trillion Naira, which is the equivalent of over 400 billion U.S. Dollars. About 24% of this GDP was generated by the agricultural sector. After oil and gas, this is the most critical economic activity for Nigeria's economy. Please note that while, agricultural activities provide large and diverse number and scope of Nigerians, oil money only 'trickles' down to a select few.

According to the Food and Agriculture Organization of the United Nations (FAO), agriculture is the "cornerstone of the Nigerian economy". The Agric sector is the largest employer of labour, accounting for over 35% of the labour force (World Bank, 2021). We must have a vibrant and

well-functioning Agric sector, and the people who control the Agric sector have significant influence. Everybody must eat. We cannot afford to leave this sector out in our quest to take over the kingdoms of this world for Jesus.

According to Forbes, 2021, Aliko Dangote is the world's richest black man worth (\$11.5 Billion USD).

Dangote Farms is a multi-billion Naira investment with a green-house nursery and processing plant in Kano State designed to process over 8 million tons of tomatoes annually. Dangote is a farmer.

**THE QUESTION IS, ARE YOU A FARMER?**

Tyler Perry as Madea (a screen character)

# KINGDOM ENTERTAINMENT:

Tyler Perry is a multi-millionaire believer who is an American actor, director, producer and screenwriter. In 2011, Forbes listed him as the highest-paid man in entertainment, earning US\$130 million between May 2010 and May 2011.

Perry explains “I have used Madea (a movie character) as a tool to get people to laugh and relax so that I can talk about God, talk about faith, mention the name Jesus in my films. And it has worked; it’s served its purpose very well. I’ve seen lots of people who don’t go to church, who have no concept of God, who have never really thought about it, begin to change their lives because of something that was said in the film or something the character invited them to see.”

As believers, we should not limit ourselves to making the good news seem like a nail and hammer gospel. We are meant to make it a ‘Fragrance gospel’ – something that is unique, sweet smelling and makes people want to identify with that uniqueness amidst what they are already used to. It is communicating the Gospel in a way that draws people to want to know God more. **This is Kingdom entertainment.**

“To be politically active in Nigeria you must be political-party relevant.”

## POLITICS CORNER

As a Nigerian, you are entitled to be a member of any political party of your choice. According to the Nigerian Law anyone who wants a position in any political office must be a member of a political party.

There are currently 18 political parties in Nigeria and every citizen has the right to belong to any party of his/her choice.

### WHAT ARE THE STEPS IN JOINING A POLITICAL PARTY?

- You must be above 18years.
- Select a political party of your choice.
- Visit your ward or party headquarter.
- Pick up the membership form(s) and fill appropriately.
- You would receive a membership card.
- Fulfil your obligations to the party

Election is coming, have you gotten your voters card? As a kingdom man do you belong to a political party?

UNTIL YOU ARE REVEALED TO YOU, YOU CANNOT BE REVEALED TO YOUR WORLD.”

-VICTOR OLUWADAMILARE

# SERVICE AND NGOs

Do you know that in 2020, an estimated 2% of the world's population is considered homeless? Also In 2021, over 84 million people were forcibly displaced nationwide due to war and conflict and every 1 in 10 persons lives on less than \$1.90 per day (2021). Going by these statistics, it seems like the world needs more charity, but it doesn't and here is why.

Charity is the virtue of doing well for others without expecting anything in return. Charitable activities and giving to people, provide valuable services that serve to alleviate suffering and, in some cases, save lives. However, charitable giving does not address the root causes of poverty, oppression, and decadence experienced in society.

Jesus preached good news to the poor and freedom to the oppressed rather than just practicing charity (Matt 11:5, Luke 4:18). What is good news to the poor and the oppressed? Is it receiving handouts, freebies, and donations?

The solution to their problem was not just a warm meal for their bellies or new clothes to wear, it was the Kingdom!

There are three ways that we need to drive kingdom:

## SOLIDARITY:

Deep solidarity is not a matter of the relatively privileged trying to help the underprivileged and to solve their problems; rather, it is a matter of understanding that nothing will change unless we are addressing the problems of the world together.

## SUSTAINABILITY:

Suitability speaks of solving problems from the root cause and these solutions create a lasting impact. It involves eliminating issues that cause poverty, oppression, displacement, and breakdown in law and order.

## SELF SERVICE:

As Kingdom people, we cannot see service as an avenue to make our lives better. Some have made service to humanity a means to make or launder money, a tool for political influence, or an avenue to manipulate the general population.
